CONTRIBUTOR EXPERIENCE LEAD TEAM

Melissa Mendonça - SciPy and grant lead

Noa Tamir - Matplotlib and pandas

Inessa Pawson - NumPy

SCOPE OF THE ROLE

Technical responsibilities: onboarding new contributors, monitoring first-time contributors' PRs and ensuring they receive feedback, maintaining projects, and solving common developer pain points.

Community organizing responsibilities: organizing and facilitating regular community meetings, sprints, and mentoring activities (including cross-project sprints).

Other responsibilities: aligning documentation across projects, coordinating internationalization of websites, and improving translation workflow.
