

Unlocking the Missing 78%: Inclusive Communities for the Future of Scientific Python

Scipy 2025 | 07-10, 14:20–14:50 (PST)

Global Program Lead at AWS

IWEC Founder - Empowering women globally through mentorship and networking.

Delivered a TED Talk on empowering women in AI.

Recognized by BBC and other outlets for advancing diversity in tech.

Speaks at global events, sharing insights on AI, cloud, and inclusion.

How Code.org is Changing Education

Code.org effectively combines social advocacy with innovative education to transform K-12 learning worldwide through inspiration and top-quality resources.

Free, High
Quality
Education
Products

Policy &
Advocacy

Social
Movements

AI Education &
TeachAI

Recognize: Men

Do we Know them?

The Missing Piece

Only 22% of AI professionals are women.

The Missing 97%

Python
Commits.

Women in Scientific Community Research Milestones

STAGE 1

- PyData Global Research & Presentation

STAGE 2

- **Case Study** Women in AI (WAI) Community

STAGE 3

- SciPy Presentation, research, and collaborations

Visibility | Invitation | Mechanism (VIM)

Visibility

- Who's seen?

Invitation

- Who feels welcome?

Mechanism

- What support exists?

The image features a minimalist design with a dark blue horizontal band across the middle. Above and below this band are light gray areas. On the left, a white circle is partially cut off by the edge. On the right, another white circle is partially cut off, with a dark gray semi-circle visible above the blue band. The text 'What can you do!' is centered in the blue band in a white, sans-serif font.

What can you do!

1 – 3: Entry Points

1

Inclusion Toolkit

Sample Codes of Conduct, mentorship blueprints, newcomer guides, metrics dashboards.

➤ *Easy-start kit for any project.*

2.

VIM-Ready Index

Lists welcoming projects with **Visibility**, **Invitation**, and **Mechanism** criteria.

➤ *Find where to contribute.*

3.

Inclusion Sprints

Quarterly onboarding events with guided mentorship and good-first-issue focus.

➤ *Hands-on, low-barrier entry.*

4–7: Strengthen Your Community

4.

Mentor Match 2.0

Partner with companies, schools & nonprofits to sustain diverse contributor pipelines.

➤ *Peer & industry support.*

5.

Inclusive Events

Speaker diversity, travel grants, accessible networking, and inclusive design.

➤ *Equity in visibility.*

6.

Ecosystem Metrics

Public scorecards: time-to-contribution, diversity in maintainers, engagement.

➤ *Measure what matters.*

7.

Shared Learning

Case studies, focus groups, inclusion symposia to refine practices.

➤ *Continuous improvement.*

8–11: Scaling your Community

8.

Contribution Paths

Verified beginner-friendly repos (NumPy, TensorFlow Docs, MLFinLab, etc.).

➤ *Real entry points for newcomers.*

9.

Partner Ecosystem

IBM, Google, NumFOCUS, Intel, Microsoft supporting inclusion in action.

➤ *Coalition building.*

10.

Community Adoption

R-Ladies, Black in AI, SciPy, PyData adopting and piloting VIM elements.

➤ *Proof of concept.*

11.

Next Steps

Invite adopters to contribute templates and feedback to the toolkit.

➤ *Create a living, evolving standard.*

Fork the Repo
